

REMARKS/ARGUMENTS

This Response to Drawing Inconsistency Notice corrects a small typographical error in an Amendment filed October 3, 2006, under the Brief Description of the Drawings in the specification. In particular, paragraph [1500] is amended to correct the typographical error of the figures contained in the Drawings from "1b" to "1d". By this correction, the Brief Description of the Drawings in the specification and the Drawings are now consistent.

Furthermore, formal drawings have been prepared and Applicants request that the enclosed four replacement sheets of formal drawings be used in place of the figures filed with the application on July 1, 2003. No changes have been made to the drawings, no new matter has been added.

CONCLUSION

Entry of this amendment is respectfully urged since it merely cures a formal defect and does not touch the merits.

Respectfully submitted,

James M. Heslin
